

## PRODUCT INFORMATION

# LIQUIFOG™ FOR LOW OIL

## THE PROBLEM

*Do your customers come in with low oil?*

Low Oil Increases:

- Ethanol Contamination
- Corrosion & Wear
- Oil Consumption
- Oil Oxidation
- Acids & Sludge

The oil gets into the combustion chamber, pistons, intake valves, and seals causing:

1. More carbon build up
2. Decreased fuel mileage

## THE ANSWER

LiquiFog™ for Oil's proprietary synthetic fogging formula contains the next generation of advanced:

1. Anti-oxidants
2. Detergents
3. VI Improvers
4. Extreme pressure agent

**Help customers prevent expensive repairs, save money at the pump, get better performance and protection.**

## USAGE

Add to fresh oil every oil change when oil was low.

## CAR CARE TIP

For maximum protection, use with our Oil System Cleaner.
